

**Low Maintenance ENERTEX Batteries  
Tubular Battery - TALL TUBULAR SERIES**

**INVERTER BATTERIES**

**Standby UPS/Inverter Tubular ENERTEX Batteries  
Capacities from 135 to 280 Ahr in 12 volts Battery range.**

**Extra Ideal Power for Home/ Office UPS and Inverters**

**2024**

## ENERTEX Factory Charged ready to use UPS/Inverter Batteries in MonoBlock PPCP Heat Sealed Containers

Enertex is a leading manufacturer of Industrial Batteries in Central India and has a workforce of 150 people. The company is well known for its high-quality products and produces all battery components in-house, including specially designed lead alloys, lead oxides, grid castings, pasted plates. Enertex began producing Industrial Batteries in the 1990s for applications like Automotive, Inverters, Traction, Stationary, and UPS.

Enertex offers a range of UPS/Inverter application batteries, including Silver and Gold ranges, with capacities ranging from 50Ah to 250Ah. These flooded batteries are designed to deliver superior performance for both high cycling, float/long duration applications and reliability over the life of the battery. They are manufactured using state-of-the-art techniques and quality components and materials for reduced maintenance and extended battery life. Overall, Enertex is a reliable and high-quality manufacturer of Industrial Batteries, with a long-standing reputation in the industry.

### Special features of UPS/ Inverter Batteries:

FEATURES OF SILVER & GOLD BATTERIES	ADVANTAGES
Proven Woven Tubular Technology	Active material retained within the PT bags - Longer life.
Electrolyte level indicator with in-built Ceramic vent plug for Flooded batteries.	Low Maintenance batteries –Very low Topping up frequency.
High acid volume per ampere hour.	Acid volume per ampere hour is more than of ordinary tubular batteries. It acts as a coolant and ensures very low maintenance.
Heavy Duty Excellent reserve capacity.	Suitable for use in areas of frequent power cut.
Resistance to abuse.	Can withstand overcharge better & Performs well in all weather conditions.
Short, Jumbo & Tall containers IT Type design.	Occupies less floor space, Robust aesthetics.
Conforms to IS 13369-1992 Electrical Performance.	Ensures consistent quality.

### APPLICATIONS:

- UPS / Inverter Systems.
- Telecommunication systems.
- Office Automation Equipments.
- Fire Alarm & Security Systems Electronics.
- PABX Systems
- Power Plants & Substations.
- Process Instrumentation & Systems
- Special Purpose Starter Applications
- Railway Standby / Signaling

The company is certified with ISO 9001:2015 and ISO 14001:2015

# TALL TUBULAR SERIES

## LOW MAINTENANCE

BATTERY NOMENCLATURE	NOMINAL VOLTAGE (V)	REF C20 CAPACITY (Ah)	WARRANTY
EIT-4000	12 V	135 Ah	48 Months (24+24)
EIT-5000	12 V	150 Ah	60 Months (36+24)
EIT-6000	12 V	165 Ah	60 Months (36+24)
EIT-7000	12 V	180 Ah	60 Months (36+24)
EIT-8000	12 V	200 Ah	60 Months (36+24)
EIT-9000	12 V	220 Ah	60 Months (36+24)
EIT-10000	12 V	240 Ah	60 Months (36+24)
EIT-12000	12 V	280 Ah	60 Months (36+24)

Dimensions: 500 x 187 x 421 (in mm)

Applicable Standard: IS 13369
